

Cellular respiration rap/song project

1. Choose your favorite rap song. (If you don't like rap or hip hop music, you can choose another type of song.)
2. Choose a topic from cellular respiration. (ATP, Glycolysis, Krebs Cycle, or Electron Transport Chain.)
3. Write lyrics that incorporates all the main concepts of the process you chose.
4. You may record yourself singing/rapping the song, make a music video, or perform the song live in class. You **MUST** provide with a **TYPED** copy of the lyrics.
5. You will be evaluated on creativity and scientific accuracy.
